

## ACKNOWLEDGEMENTS

Typing and typing, data entry, scanning pictures, reading over and over, emailing, stops and starts - when time allowed, it seemed it would never be complete. With all the work of creating this book there are several to thank for their part in making the rough project transform into a book.

Mary Ann (Edington) Williams, Uncle Charle's daughter, was the one that did the first proof and also helped with so many details along the way. Earl recounted family stories and helped identify photos. His brother Noah Junior added his bit. Conor Edington helped identify some of the clan in a group picture. Steve Edington diligently scanned the pages of the *Life in Koleen* book for great background. Kristin Edington helped with the many more drafts and encouraged me to finish when it was time to finish. Don read, marked and helped with the fine print. Tammarra Holmes, Support Analyst in the Business and Technology division at LCCC, was the MS Word 2007 software solver. This pesky software does not number pages or create a Table of Contents with ease. All the Edington Family met in 2010 at Tom and Vickie Edington's home in Bloomington, Indiana for a reunion. The stories flowed and the ties renewed. If you are an Edington or just associated in some way enjoy this book and claim your part of the history.
